

THE KELOWNA COURIER

AND OKANAGAN ORCHARDIST

VOLUME 7

Kelowna, British Columbia, Thursday, July 13, 1911

NUMBER 50

FOR SALE

The finest Residential Property in town, with bearing fruit trees

—FOR— SALE OR RENT

A brick house and half-an-acre of land

A cement-block house and one acre of land

For further particulars, apply—

W. LLOYD-JONES,
—KELOWNA—

LINOLEUMS

On account of being so cool and attractive in appearance, easily washed and extremely durable, linoleum is fast superseding other floor coverings for halls, dining rooms, kitchens, bathrooms and offices.

We have a display of nearly one hundred of this season's newest patterns and colourings alone, all thoroughly seasoned and ready for long service.

Prices, 55c, 65c, 75c and upwards

Kelowna Furniture Co.

CITY COUNCIL

By-Laws Finally Passed

The Council reverted last week to Saturday night as the date of their regular meeting, much to the distaste of the weary newspaper scribes, to whom turning out on that evening seems like a hardship after the labours of the week and the long hours of journalistic work, extending frequently past midnight. The members present on Saturday were the Mayor and Aldermen Cox, Leckie and Copeland.

Mr. Ernest Clement was in attendance in regard to a plan of a subdivision of Block 40, to which the Council had taken some exception at a former meeting.

Ald. Leckie explained that the plan showed two blind streets and two blind lanes, and the Council could not sanction it, as it would run the City up against the same proposition as had occurred in regard to St. Paul St. on the Middleton sub-division, in which case the people who bought property on a blind street were compelled to buy land subsequently to get a proper outlet, and the City was also put to expense in connection.

Mr. Clement stated that he was willing to make such changes in the plan as would meet the views of the Council by re-arranging the lots and doing away with the blind streets. He explained that the next block, through which it had been suggested it might be desired in the future to extend the blind streets, was the property of Lum Lock, and that the C. P. R. was understood to have an option on it, in which case no extension of the streets would be desired by that Company, as the land would be used for trackage.

The changes outlined by Mr. Clement were deemed satisfactory by the Council, and the plan will be amended accordingly.

The following accounts were referred to the Finance Committee and ordered to be paid, if found correct: P. O. Box rent for year \$3.00 Remington Typewriter Co., stationery 8.25 K. F. Oxley, supplies for Park... 1.05 W. F. Bouvette, watering streets, June 48.00 Kelowna Mfg. Co., supplies for waterworks 1.00 Ian MacRae, balance of expenses account taking lunatic to New Westminster 11.70 J. Sanders, work on waterworks 1.70 Canadian Westinghouse Co., freight on machinery 16.00 J. Fairfield, work on waterworks construction 25.45 L. A. Hayman, clearing beach of logs 3.50 T. E. Cooper, supplies for Power House 5.00 Harvey & Moorhouse, laying out cement sidewalks and plans of same 55.00 G. Markham, cleaning office and Fire Hall, June 6.50 Morrison - Thompson Hardware Co., supplies for June 55.70 Collett Bros., teaming for June 1.25 Kelowna Saw Mill Co., lumber and hauling sawdust, June 110.90 Work on streets for week ending July 8th, 1911 349.40

By-law No. 93, to strike a rate of taxation for 1911, and By-law No. 94, to raise \$3,000 to extend St. Paul St., as a local improvement, received the formality of a first reading, the figure of the rate being left blank pending final settlement as to what it shall be. In this connection, the Mayor suggested that an extra meeting be held early in the following week to decide the matter, so that both by-laws could be rushed through at the regular meeting on July 13. He was of the opinion that the rate would have to be struck at 23½ mills instead of 23, to cover extra expenditure on the streets.

By-laws 90, 91 and 92, which received the sanction of the ratepayers on Friday, were reconsidered and

OKANAGAN MISSION NOTES

(From Our Own Correspondent)

The summer general meeting of the Sports Club was held at the Bellevue Hotel, on Wednesday, July 5th. The President, Mr. Hobson, presided, and there was a very fair attendance of members. The Secretary, Mr. A. H. Bell, read the minutes of the last meeting, which were, on motion, passed.

The Treasurer, Mr. Harvey, then read a statement of receipts and expenditures, showing a balance in hand of \$40.98, which was on motion accepted as read. Mr. Harvey also produced a supplementary statement as follows—

Cash in hand, as per statement \$40.98 Subscriptions due, but not paid 74.00

..... \$114.98

with which amount the Club had to meet the following expenditure—

Instalment of purchase of new ground \$60.00

Completion of cement cricket pitch (estimated) 25.00

Completion of clearing new ground 25.00

Sundry bills outstanding 49.90

Salaries 60.00

Running expenses for remainder of season 50.00

Total \$269.90

showing an estimated deficit on the year of \$154.92.

During the discussion which followed, Mr. Sweny renewed his former proposal to lend the Club \$500 on the security of the new ground for a period of five years at 6 per cent. per annum. After consideration, it was unanimously resolved that Mr. Sweny's extremely generous offer be accepted, and that a general meeting of the Club be held at a later date to consider to what purposes the sum should be allocated.

It was also resolved that the Committee should investigate the idea of incorporating the Club under the Friendly Societies' Act.

Messrs. Bartholomew and Fordham were unanimously re-elected auditors for the current year.

The Secretary reported the success of the first annual tournament of the Okanagan Lawn Tennis Association, recently held at Kelowna.

The return lawn tennis match between the Sports Club and the K. L. O. Bench was played on the former's courts on Thursday, July 6th, and resulted in a win for the Sports Club by six matches to three, but it is to be regretted that the scores are not available for publication.

Dr. Wansbrough Jones returned on Saturday last from his lecturing tour in the Kootenay.

A meeting of subscribers to the Okanagan Mission Church Building Fund was held in the church on July 8th. The Rev. T. Greene presided, and after opening the meeting with prayer, briefly explained the objects of the meeting, viz., the reception of the report and accounts of the Building Committee and the consideration of the advisability of winding up the Building Committee and handing over any balance in hand to the churchwardens and sidesmen.

The Hon. Secretary-Treasurer, Mr. R. Gray, read the minutes of the last meeting, which were, on the motion of Mr. Harvey, seconded by Mr. Bell, passed as read.

The Hon. Secretary then read the report of the Building Committee. Mr. Gray described the steps taken by the Committee in getting the site surveyed and decided to the Synod of the Diocese of Kootenay, and in obtaining tenders, the lowest of which, that of Mr. Shand, being accepted; and went on to say that the church had been built in accordance with the plans of the architect, Mr. Peters, and that Mrs. Colin Smith and Mr. Dalglish had been appointed a sub-committee

A CLEAN SWEEP SALE OF WOMEN'S WASH SUITS, COATS & SKIRTS

No need to explain that this has been a very backward season, that, because of the very cool weather business has suffered unforeseen injury. We are over stocked in our ready-to-wear department but we do not intend to be very long.

Notice the Reductions here quoted. Ladies' Tan Duck Suits, regular \$11.00, cut to \$8.85. Ladies' White Duck Suits, regular \$9.00, cut to \$7.15. Ladies' White Duck Suits coloured stripes, regular \$9.50, cut to \$7.75. Ladies' Natural Linen Suits, regular \$9.50, cut to \$7.75. Ladies' Coloured Duck Skirts, regular \$4.75, cut to \$3.60. Ladies' Coloured Duck Skirts, regular \$4.50, cut to \$3.15. 1 only Lady's long Cream Serge Coat silk braided, regular \$16.50 cut to \$12.95. 1 only Lady's Natural Shantung Silk Suit, regular \$25.00, cut to \$19.65.

We have a few Ladies' Princess Dresses in white and coloured mulls, also Ducks which we are offering at unheard of prices.

KELOWNA OUTFITTING STORE
W. B. M. CALDER, Prop.

to select colours for the external and internal stains, etc. The Committee had the necessary furnishings for the chancel provided, including the altar, retable, credence table reading desks, etc., provided, with the help and advice of the Rector and Mr. Peters. The Committee feel sure that everyone will appreciate and value the excellent work done in the building of the church by the contractor, who, unfortunately, had a very serious illness after having undertaken the contract, resulting in the loss of an arm, but the building was carried on during that time by his son, Mr. William Shand, in a most thorough and conscientious manner. It is a great satisfaction to the Committee to feel that the building and all expenses connected therewith have been paid for and that there is a balance in hand of \$18.68. The Committee desire to express their thanks to Mr. Peters, the architect, who only charged his fees on the contract price, and gave his services in designing the appointments of the church. The Committee feel that it is impossible to mention the names of all those who have so generously supported them with money or gifts, but a list of subscribers will be posted in the church porch. The Committee, however, feel it impossible to pass over the following gifts, viz., the gift of half an acre of land for the site from Mr. James Baillie; four altar cloths, brass cross, candlesticks, vases, book markers, Bible and prayer books, from the Rev. J. H. and Mrs. Townsend, an altar cloth from Miss Oakley; altar rails from Mrs. Crichton; lectern from the Rev. L. C. Wilkinson; old Parish Church, Communion vessels collected for, by Mrs. E. J. Harvey; alms dish, given by Mrs. Charles J. Wilkinson; lamps and matting and hymnbooks, from Kelowna Parish Church; hymn board, from the Women's Auxiliary Aid Society, Kelowna; and organ, collected for by Mrs. Barneby and Mr. W. D. Walker.

Mr. Greene, in commenting on the report, moved a resolution that the best thanks of the congregation be tendered to their friends in the Old Country for the extremely generous way in which they had given so much help in erecting and beautifying the church, and in the adornment of the altar, laying special emphasis on the beautiful communion vessels collected for by Mrs. E. J. Harvey, which he considered were worthy of being

ARE YOU IN EARNEST

about wanting to get the best value for your money? If so, the next time you are baking try Ogilvie's Royal Household Flour; makes just as fine pastry as it does bread, and the best of both. Housekeepers find it always gives satisfaction.

49-lb bags, \$2.00 each. Also in 24-lb and 17-lb bags, both handy packages for camp use.

Ogilvie's Glenora Flour, 49-lb bags - \$1.85

Rolled Oats and Oatmeal, Graham Flour, Wheat Granules, Farina, Corn Meal, etc.

Purity! Strength! Flavour! Fragrance!

RAM LAL'S pure Indian Tea, unequalled for quality and richness of infusion.

½-lb, 1-lb, 3-lb, and 5-lb, packages, per lb 50c.

FINE ENGLISH PICKLES

Mixed, Chow-chow, Onions, Walnuts - per large bottle, 30c.

Heinz's Euchred Sweet Pickle possesses peculiarly appetizing flavour and delicate richness unknown to other sweet pickles. Try it. Per bottle, 40c.

THE KELOWNA COURIER

AND

Okanagan Orchardist.

Owned and Edited by
GEO. C. ROSE, M. A.

SUBSCRIPTION RATES
(Strictly in Advance)

To any address in Canada and all parts of the
British Empire: \$1.50 per year. To the United
States and other foreign countries: \$2.00 per
year.

News of social events and communications in
regard to matters of public interest will be
gladly received for publication, if authenti-
cated by the writer's name and address,
which will not be printed if so desired. No
matter of a scandalous, libellous or impertin-
ent nature will be accepted.

To ensure acceptance, all manuscript should be
legibly written on one side of the paper only.
Typewritten copy is preferred.

The COURIER does not necessarily endorse the
sentiments of any contributed article.

BY-LAWS CARRIED

A Small Vote

Little interest was taken by the
ratepayers in the By-laws submitted
to them for approval on Friday, and
the total poll of 55 votes was about
the smallest recorded in recent years.

The By-laws voted on were No. 90,
to borrow \$4,000 for opening new
streets, No. 91, to borrow \$3,000 for
extending the waterworks; and No.
92, to borrow \$3,000 for the pur-
chase of road-making machinery. On
a basis of three-fifths, the number
of votes necessary to carry any of
the by-laws was 33, and all passed,
but two of them by rather narrow
margins.

The results were as follows:
By-law For Against
No. 90 39 16
No. 91 45 10
No. 92 37 18

It has at last been decided that the
battleship Maine, sunk in Havana
Harbour for many years, was wrecked
by the explosions of her magazines,
which theory exonerates the Spanish
from the blame of causing the disaster.
The primary cause of the explosion
will probably never be learned,
but it is certain that the explosion
was not from the outside of the
ship. On that point the U. S. en-
gineers are unanimous.

FARMERS' INSTITUTE

Lectures at Kelowna

There was a poor attendance at the
Farmers' Institute meeting last night,
at which Prof. Allen, of the Umatilla
Irrigation Experimental Station,
and Mr. B. Hoy assisted in the lec-
ture, were scheduled to speak, about
twenty-five persons being present.

Mr. Hoy opened the proceedings
with a very informal talk, which
took the form of answering questions
more than an address. He advocated
the use of cover crops in orchard
work, recommending rye, hairy vetch
and clover, the first as a non-legu-
minous crop, the second as the best
leguminous crop and the last as the
perennial. Vetch was particularly
good in mellowing and rendering fri-
able stiff clay soils. Clover was gen-
erally left two years and then ploughed
under. Alfalfa was also good, but
was sometimes hard to get out. He
did not think annual cover crops af-
forded any refuge for insect pests,
but it might be so in the case of
perennial cover crops.

He recommended late summer pruning,
from the middle of August to
the 1st of September, for promo-
tion of fruit spurs. The time would
vary according to the character of
the soil, but should be late enough so
that there would be no danger of
second growth and the tree could
harden up before winter. Young
trees, on the other hand, could be
shaped early in the summer and the
branches pinched back from time to
time as seemed desirable. He did not
favour cutting all the lower branches
off young trees the first year or two,
as enough should be left to shade
the trunk.

Inter-crops were all right in either
a young or old orchard if the soil
was strong enough to grow them
without depriving the trees of nour-
ishment, but they should be of such
a character that irrigation could be
stopped early enough to mature the
wood of the trees. Two irrigations
should be enough in a season for
young trees, and in some cases one
would be enough, but the amount of
water required would vary with the
character of the soil.

Prof. Allen delivered a short ad-
dress and then described a number
of magic lantern scenes illustrative
of irrigation work in the Western States,
the lantern being operated by Mr.
Hoy. Unfortunately, some of the
views were not very distinct, but they
were of an interesting character and
the Professor's explanation remedied
some of the cloudiness of the pictures.
Summing up his remarks, he urged
liberal irrigation but not to excess,
using deep instead of shallow furrows
so as to avoid surface soakage, and
stopping it early enough to harden
up the trees for winter. Excessive
irrigation often led to the formation
of alkali and the ruination of or-
chards. Cover crops were valuable in
many ways, but especially because
they helped to dry out the ground
in the fall and thus check late growth
of wood.

In expressing the thanks of the au-
dience to the lecturers, Dr. Dickson
drew attention to a statement made
by Prof. Allen that the experimental
station at which he carried on his
work was supported jointly by the
U. S. and Oregon State governments
and expressed the opinion that an ef-
fort should be made to obtain simi-
lar co-operative action between the
Dominion and B. C. governments to
establish a similar station somewhere
in the Dry Belt. He regretted the
small attendance, which he attributed
to the haying season and orchard
work now being in full swing.

A new arena, costing \$200,000, will
be built in Toronto. It will have a re-
frigerator plant and will seat 8,000.

Ad. Woigast retained his title of
lightweight champion, on July 4, by
defeating Owen Moran in a "Fr'seo"
ring. Moran was "put away" in the
thirteenth.

King George and Queen Mary have
received a hearty welcome in Ire-
land. A review of troops was held in
Phoenix Park, Dublin, and colours
presented.

Sir Donald Mann has announced
that the C. N. R. has secured finan-
cial backing for the construction of
their entire route from the Pacific
to the Atlantic.

A monument to the memory of
Laura Secord, the heroine of 1812,
was unveiled at Queenstown Heights
last Thursday by the Chief Justice,
Sir Charles Moss.

While no official announcement has
been made, it is confidentially asser-
ted in official circles that the contract
for the building of the ships of the
Canadian navy has been secured by
the British Canadian Shipbuilding &
Dock Company, of Sydney. This is
the company in which Sir Henry Pol-
lart of Toronto, and Lieutenant-Gov-
ernor Gibson of Ontario are associa-
ted with Sir Charles Ellis, chairman
of the John Brown Company, of Cly-
debank, builders of the Lusitania, and
Mr. Grant Brown, of New York.

SEWERAGE SYSTEM

For Small Cities

We are in receipt of the Second
Annual Report of the Commission of
Conservation, which under the chair-
manship of the Hon. Clifford Sifton,
is carrying on work of great public
service. Embodied in the report is
an account of the proceedings of the
Dominion Public Health Conference
which was held at Ottawa on Octo-
ber 12th and 13th, 1910. Amongst
the papers read at the Conference
was one by Dr. M. M. Seymour, of
Saskatchewan, giving a description in
general terms of the sewerage system
recently installed and now in opera-
tion in the town of Swift Current,
Sask. As the question of sewerage
for Kelowna is one which must be
faced at an early date, and the City
Council has already taken steps to
obtain a report from an expert on
the most feasible scheme for this
city, the system constructed at Swift
Current, a place of nearly the same
population, should yield information
of value and interest to our readers,
and we therefore publish herewith a
portion of the paper.

The sewers have been designed on
the separate sanitary system, reckon-
ing a per capita water consumption of
40 gallons per 24 hours, and are to
accommodate a population of 20,000
persons (present population 2,500),
the system north of the track being
computed for 10,000 persons and
south of the track for another 10,-
000.

Owing to the topography of the
town it was found necessary to raise
the sewage at least one point as a
gravity flow throughout was impos-
sible of attainment. Therefore on
consideration it was decided to reduce
the size of the sewers, give steeper
gradients with a corresponding self-
cleansing flow, and raise or eject it
at two intermediate points. The flow
throughout averages from two to
three feet per second.

The sewers are kept well down, in
order to accommodate deep basements
as the town grows, and are designed
so that the shallowest sewers at the
extreme limits of the present town-
site, when constructed, will have a
covering of nine feet.

This is an economical method also,
as it permits of the iron water-
mains being laid in the same trench
as the sewers, but above the sewers.
Water mains in this climate require a
covering of eight feet.

The sewage is received in a screen-
ing chamber where sticks, rags or
other foreign substances are caught
and retained; it thence flows into
collecting and distributing channels
and over weirs into a sedimentation
tank, where it receives a 16-hour or
eight-hour treatment.

The tank is a continuous flow tank,
but is designed to give a velocity of
only one-sixty-fourth of an inch per
second, thus permitting a consequent
deposit of somewhere near 80 per
cent.

The floor slopes at 1 to 15 to
gravitate the sludge to one end of
the tank, from whence it is gravitat-
ed to the sudge beds for drying, pre-
vious to disposal in shallow trenches.

The effluent in the tank passes
through circular openings in the di-
viding walls, under the water line,
into an aerating channel where it is
collected in a thin stream and passed
over a measuring weir on to the bac-
teriological filter.

The filter is rectangular in shape,
of the bacteriological type, eight feet
deep and composed of three inch cru-
sted rock. The distribution is by
means of Stoddard traps which are
very effective for small systems and
only require occasional supervision
and attention.

From the filter the now non-pu-
trescent effluent flows through a dis-
infecting, baffling channel into the
creek, at a point about four miles be-
low the fresh water intake. The wa-
ter taken from the creek is used for
household and other purposes, turned
into sewage, clarified and purified,
filtered and finally returned to the
creek in a non-putrescent condition.

The actual disposal works are cov-
ered in and roofed to avoid the rig-
ours of our winter season, and it is
expected that the latent heat of the
sewage passing through the sedi-
mentation tank will be sufficient to
resist freezing in the filter, many
tests from actual experience having
shown a sewage temperature of 43
to 45 degrees Fahrenheit within a
closed tank in this climate, when the
external temperature had been 40
degrees Fahrenheit below zero.
Should, however, our expectations not
be fulfilled, artificial heat by means
of stoves will be adopted.

The cost of the disposal works
when completed will be under
\$10,000. They are designed as one
unit for 2,000 persons. The mainte-
nance will need on an average the ser-
vices of a labourer for about one
hour per day. As the town grows ad-
ditional units can be constructed, suf-
ficient ground having been purchas-
ed for that purpose.

BUSINESS STATIONERY

Too much stress cannot be laid upon the importance of sending out your correspondence in a manner that will create a good impression.

Do not save money by first attacking your business stationery.

Get The Best

The impression created by business stationery is lasting, and many a house has lost business owing to the fact that letter-heads, billheads, statements, envelopes, business cards, etc., were got up in such a manner as to leave the receiver under the impression that such a concern was doing business in an attic.

BLANK BOOK WORK

With the recent installation of a power wire stitcher, perforating, punching and round cornering machine, The Courier is now in a position to execute orders for this class of work, in quality equal to that from city shops. Call and see samples.

LOOSE LEAF INVOICE FORMS

We always keep a full stock of Invoice Forms for the Simplex Loose Leaf System, and can supply them on short notice.

Send your orders for printed matter to this office. Our work and prices are always right and right always.

WATER STREET

CITY COUNCIL

Continued from page 1

finally passed. Before putting the resolution in regard to By-law No. 92, for the purchase of road-making machinery, the Mayor asked Ald. Cox, who had expressed his opposition to the By-law at a previous meeting, if he had any remarks to make.

Ald. Cox said the vote on Friday indicated that the people were in favour of the By-law, but he was still opposed to it as an outlay that could be dispensed with this year. He pointed out that there was some machinery of the same sort lying unused at Vernon; in fact, it was for sale.

The Mayor advised caution in buying the machinery, especially the rock-crusher, as apparently no member of the Council knew much about it.

Ald. Copeland reported that he had made arrangements with Mr. W. C. Blackwood to cut the weeds and grass on the streets, beginning Monday. Hay would be made of any grass left for that purpose, while the weeds would be burned.

Ald. Cox spoke strongly of the condition of Bernard Ave. for traffic, and urged that, if the steam roller was not immediately available, something be done at once to improve it. He held that it was the duty of the Board of Works to make the street passable and fit for cars and bicycles.

Ald. Copeland said, in reply, that the steam roller had been sent for that day, and would be put to work as soon as possible after its arrival. Lots of water would be put on the sand and rock, and the roller would be run over the street several times. Should more sand be required, it was feasible to get it from the mouth of Mill Creek, entailing a much shorter haul than from Bankhead.

It was agreed to meet on Tuesday morning, the 11th, in special session, and the Council then adjourned.

At the special meeting on Tuesday morning, the Mayor and Aldermen Cox, Leckie, Dalgleish and Copeland were in attendance.

The Mayor stated that the only business to be transacted was the consideration of the Tax Rate By-law, No. 93. He pointed out that a rate of 23½ mills would limit the expenditure of the Board of Works on street account to \$6,000, and once the By-law was passed that sum could not be exceeded.

Aldermen Dalgleish and Copeland referred to several pieces of work which they considered should be carried out, at an estimated additional cost of \$1,000, but they agreed that it would not be advisable to strike a higher rate than 23½ mills and that the street expenditure should be kept down to the figure mentioned by the Mayor.

The By-law was then read a second and third time, and the Council adjourned.

Owing to the steadily increasing traffic, the board of the I. C. R., has decided that it will be necessary to add more rolling stock to the government railway. Orders will be placed for 12 locomotives, 12 passenger cars, three diners, three express and postal and 500 freight cars.

Three transcontinental systems are making elaborate plans to handle crops and supply men for the prairie harvest. The Canadian Northern and G. T. P. have already taken steps to bring a small army from Great Britain and the Canadian Pacific is looking south for men.

The record of the United States in towing a huge floating dock to Manila under convoy of warships is to be beaten by the Canadian Vickers, Limited, recently incorporated, and who are to construct a shipbuilding plant in Montreal. A floating dock of the first class, 950 feet in length, and larger than the one towed to Manila, is to be constructed by the Vickers people at their works in England and brought across the Atlantic by three powerful Dutch tugs. This is the first time such a feat has been attempted without a convoy of big ships. The dock will have a lifting capacity of 25,000 tons.

G. H. Beaconsfield won the Canadian golf championship at Ottawa last Friday.

WATER NOTICE

NOTICE is hereby given that an application will be made under Part V. of the "Water Act, 1900," to obtain a licence in the Osoyoos Division of Yale District.

a.—The name, address and occupation of the applicant—Robert Goldie, Farmer, Kelowna, B.C.

b.—The name of the lake, stream or source (if unnamed, the description is)—Spring on Lots 17 and 18, Map 264, and Lot 66, Map 420, C. O. Lands.

Sundry freight " 12.30

Printing, stamps, etc. " 13.09

Balance in hand " 18.08

\$2,273.71

(Signed) ROBERT GRAY,
Hon. Sec. & Treas.

We have examined the above statement, with all vouchers and documents relating thereto, and find it correct.

(Signed)—G. C. R. HARVEY,
E. W. CHATER
Hon. Auditors.

Mr. Gray also announced that subscriptions amounting to \$110 had not been received, while several people had announced their intention of giving a subscription without definitely stating the amount.

On the motion of Mr. Walker, seconded by Mr. Chater, it was resolved that the accounts be passed, carried.

Mr. Walker then moved a vote of thanks to the Building Committee, which was carried by acclamation, and to which Mr. Hobson responded.

On the question of the balance in hand, \$18.08, and the unpaid subscriptions being discussed, it was decided that the balance in hand should be handed over to the Churchwardens, and Mr. Chater's kind offer to collect the outstanding amounts was gratefully accepted. It was pointed out that although the church was finished, there were other expenses to be met, notably that of fencing, and it was further agreed that it was desirable that a quarter of an acre of land adjoining should be bought when practicable. Mr. Greene remarking that he had earmarked his own subscription for that purpose.

Mr. Greene then described the steps he had taken in conjunction with the Bishop to secure the services of a curate, and stated that he hoped shortly to hear something from the Bishop, who was now on his way home from England. Mr. Greene further stated that he hoped the Bishop would be here in August to dedicate the church.

A vote of thanks to the Restor for presiding terminated the proceedings.

Apropos of the visit of Major Bott, C. O. of the B. C. Horse at Vernon, to the Polo Ground at Kelowna last Thursday, with a view to raising a squadron in Kelowna and District, strong efforts are being made to raise at least a troop from Okanagan Mission.

At the time of writing, 14 men have put their names down, and it is confidently expected that several more will join. The success of the movement, here at any rate, seems to be assured, and the place is to be congratulated, as it is an excellent thing for all men to learn their drill and to be able to shoot, and quite apart from that side of the question the annual camp provides a most enjoyable holiday, as it is understood that the government pay nearly all expenses in addition to pay while in camp, thus reducing personal expenses to a minimum.

On Dominion Day a Mixed Doubles American lawn tennis tournament under handicap was played on the Sports Club courts with the following results. Ten couples entered, and each couple could win a maximum of 72 games.

Mr. J. S. Thomson and Miss Farrow, receive half 15, 32, 1; Mr. and Mrs. Stubbs, owe half 30, 48, 2; Mr. A. Innocent and Miss K. Farrow, owe 30, 44, 3; Mr. and Mrs. Mallam, owe half 30, 42, 4; Mr. and Mrs. Harvey, ser. 38, 5; Mr. and Mrs. Bell, ser. 34, 6; Mr. Duglish and Miss M. Townsend, ser. 30, 7; Mr. and Miss Innocent, owe half 30, 26, 8; Mr. Standing and Miss B. Thomson, receive half 15, 26, 8; Mr. W. Thomson and Miss E. Thomson, receive 15, 22, 9.

The trade agreement between Canada and France has resulted in increased business, the chief advantage, however, being with France.

A number of London papers, assuming that Sir Frederick Borden is to be Lord Strathcona's successor, publish sketches of his career. His administration of the militia department is commended for its freedom from party politics.

RIFLE ASSOCIATION

Weekly Practice

Boisterous breezes seem to select Thursdays to disport themselves, and with painful regularity they have been playing pranks with the scores at 500 and 600 yards. Last Thursday was no exception, and a very strong left wind, necessitating as much as seven feet windage, made havoc of the scores at 600. Mr. J. R. Conway, who was the only one of the nine riflemen in attendance to reach the 90's, had particularly hard luck. Opening with an inner, he put on a string of five bulls in succession but a strong gust blew him off the target with his last shot and spoiled what would have been a remarkable tally, considering the weather conditions. Messrs. T. Allan and C. A. Blomfield put on nice 32's at 500, otherwise the shooting was rather below the average.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Public Building, Revelstoke, B.C." will be received until 4.00 p.m. on Monday, July 24, 1911, for the construction of a Public Building at Revelstoke, B.C.

Plans, specification, and form of contract can be seen and forms of tender obtained on application at the office of Mr. Wm. Henderson, resident architect, Victoria, B.C., at the Post Office, Revelstoke, B.C., and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, June 29, 1911.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

NOTICE TO SPORTSMEN

Any person wanting good rod fishing for a week or two in the mountains should apply to the undersigned. Good fishing guaranteed. Charges \$1.00 per day per man.

LEON E. GILLARD,
Kelowna.

D'ARTAGNAN

HORSE BREEDERS' LIEN ACT

Form A

Government of British Columbia
Department of Agriculture

Certificate of Pure Bred Stallion No. 4156

The Pedigree of the Stallion D'Artagnan, described as follows: Colour, Bay; star, snip, left front and both hind feet white; foaled April 20th, 1903; bred by M. Alphonse Hays, Department of La Manche;

1st Dam by Quenouille, by Harley; 2nd Dam by Cascade, by Lavater, 3rd Dam, by Heir of Linnet;

has been examined by the Department, and I hereby certify that the stallion is of pure breeding and is registered in a stud book recognised by the Department.

J. R. ANDERSON,
Deputy Minister of Agriculture
Victoria, B.C., March 27, 1908

The French Coach Horse cannot be excelled for combination of speed, power, elegance and endurance; of a mild disposition; and the most prepotent and impressive of all breeds, the pedigree extending back over 200 years.

Carries insurance of \$1,000 with nearly a year to run.

Tenders will be received until July 15th, at noon. The highest or any tender not necessarily accepted. Terms will be given if satisfactory.

D'ARTAGNAN colts are giving entire satisfaction. Intending purchasers can satisfy themselves on this matter by inspecting his stock at the premises of W. R. Barlee, D. W. Crowley, John Conroy, J. H. Baillie and several others.

Tenders to be addressed to
E. W. WILKINSON, Secretary

MONEY TO LOAN in sums of \$1,000 to \$20,000 at 8 per cent.—Remember Paul. 50-1f

DOUBLE YOUR MONEY.—Buy a lot in Coronation Square, it is sure to double in value in less than a year. In fact we are selling lots for less than half what is now being asked for adjacent property. How can we do it? Simply this—we bought this excellent piece of land, 4 1/2 acres, block 40, at a reasonable figure, and are now going to give our patrons the benefit. We do not want to get rich all at once, and we want every man in Kelowna, no matter how small his means, to own a homesite. We are going to sell a limited number of these lots at one hundred dollars each, one quarter cash, and three, six and nine months for the balance. There is now absolutely no occasion for the people to complain about high prices. It is about the same distance from the business section as the public school.—CLEMENT BROS. 48-4

WANTED.—Paid correspondents and subscription agents for the "Courier" at Rutland, Benvenuto, K. L. O. Bench and generally throughout the district tributary to Kelowna. Liberal terms. Apply by letter only to Editor, Kelowna Courier.

Local and Personal News

Mrs. B. C. Richards was a passenger to Vancouver on Wednesday.

Mr. A. E. Clarke, of Rutland, left on Friday on a visit to Vancouver.

Mr. R. E. MacBean went to Vancouver on Wednesday.

BORN.—To the wife of Mr. Charles Bird, on July 6th, at the Clifton Nursing Home, a daughter.

BORN.—To the wife of Mr. Kenneth Tallyour, of Westbank, on July 1st, at the Clifton Nursing Home, a daughter. The child died on July 5th.

Mrs. Edmondson, of Vancouver, is at Lawson's this week, demonstrating the superiority of the Nabob brand of coffee and jelly powder.

DIED.—On July 10th, Sydney Edward, infant son of Mr. G. E. W. McKie, aged 13½ months. The funeral took place on July 11th from the residence of Mr. K. F. Oxley, Rev. T. Greene officiating.

Mr. J. Harvey, who has been in the far northern portions of B. C. for nearly two years, arrived on Saturday from Vancouver to pay a visit to his relatives here.

The Methodist Mission Band will hold a lawn social on the grounds of Capt. Knight, both afternoon and evening, on Tuesday, July 18th. Ice cream, cake and sandwiches will be sold. Everybody welcome.—Con.

Between 50 and 60 tickets were sold yesterday morning for the 12th of July excursion to Penticton by the s.s. "Aberdeen." There did not seem to be a very large number on board from Northern Okanagan points.

Attention is called to the advertisement calling for tenders for the fine French coach horse, D'Artagnan, owned by the Mission Valley French Coach Horse Association. The animal is a very fine one and his colts have been generally satisfactory. His disposal by the Association should afford horse-breeders an exceptional opportunity to improve their stock.

A team belonging to Mr. A. Lefevre ran away on Bernard Ave., on Monday afternoon. In attempting to stop them, the driver lost his footing and fell, the heavy wagon loaded with a ton of oats passing over his left leg. Although the surface on which he fell was the so-called "gravel" which has disgraced the street for the past year, marvellous to say he escaped without any broken bones and with nothing worse than a painfully bruised limb. The team stopped a little further on and no damage was done to the harness and wagon.

Mr. D. H. Rattenbury has sold the desirable property of Periot Bros., consisting of 65 acres situated on the Vernon-Kelowna road, about four miles from town, to Mr. William Marshall, of Lemberg, Sask., for the sum of \$23,000. It includes eight acres of bearing orchard. The purchaser will take up residence on the land about November. Mr. Rattenbury has also sold 15 acres belonging to Mr. J. H. Bartley, on the Vernon road, next to the Green place, to Mr. William Campbell, also of Lemberg, for about \$5,500. The tract comprises 10 acres of 2-year-old trees and five acres of hay meadow, and is one of the best pieces of soil in the district.

The preliminary survey of the Kettle Valley Railway has been finished to the South Kelowna Land Co.'s dam, and the party engaged in the work are now retracing their steps towards Penticton and making the final location. It is not considered probable that any active construction work will be carried on in this neighbourhood until next spring. The location obtained is regarded as very satisfactory to Mr. Gourlay, the engineer in charge, as it eliminates the costly tunnels and bridges entailed by the survey made last winter at a lower altitude. The survey work from the South Kelowna dam to the Kettle River is being actively carried on by another party, and it is hoped to have all the line finally located before the end of the autumn. So far as this district is concerned, the final location of the Kettle Valley Railway puts the line, when constructed, entirely out of reach, owing to the high altitude at which it traverses the Mission Range.

Mr. F. Armstrong returned on Tuesday from a visit to Ontario.

The receipts at the Fruit Festival of the Ladies Hospital Aid amounted to \$37.05.

Mr. D. Good, chief packer for the Kettle Valley Railway, paid a visit to Penticton on Friday.

The Kelowna intermediate lacrosse team played a return match here on Thursday last with the Penticton team, and inflicted a severe defeat upon them than on Dominion Day, the score being 7-2 in favour of Kelowna.

The War Canoe Club have chartered the s.s. "Aberdeen" for an excursion to Peachland next Thursday, July 20th, on the occasion of the Peachland Regatta. The trip should be a most enjoyable one, and an afternoon of exciting sport is promised. There being no less than five war canoe races on the programme. The boat will leave Kelowna about 12.30 p. m.

The municipal meeting called for Thursday evening, to discuss the By-laws to be voted on the following day, proved to be a fiasco, as only half-a-dozen people turned up, and after waiting for about three-quarters of an hour in the hope that there would be some belated arrivals the members of the Council who had come prepared to explain the purpose of the By-laws betook themselves homewards.

R. J. Chamberlain, of Kelowna, this week purchased Ed. Davis' trotting horse La Carista, and had him shipped over the Great Northern on Thursday as far as Oroville. The price paid is stated to have been \$600. Mr. Davis purchased the horse from the Woodlawn Stock Farm of California some two years ago, and while owned by him the horse won many good races.—Grand Forks Gazette, July 8.

A drunken man gave a disgusting exhibition of brutality to animals last Thursday evening on Glenn Ave. Standing up in a buggy, he plied his horse furiously with his whip until it dawned upon his befuddled brain that the speed at which the rig was travelling would not permit turning the first corner safely, so he jumped out and left the horse to its fate, with the result that the buggy capsize at some distance further on and the horse went down in a heap, sustaining a bad cut on one of its legs. The harness was badly damaged and some injury was also done to the buggy. There is altogether too much cruel treatment of animals in this vicinity, and the heavy hand of the law should fall upon the brutes in human guise who abuse the defenceless members of the lower creation in their charge. It is only cowards that inflict ruthless punishment upon an animal that cannot retaliate, and they would not dare to undertake a quarrel with a fellow of their own size.

Mr. W. B. Farris, solicitor, of Nelson, paid a brief visit to town on Monday, arriving by the boat in the afternoon and leaving by the motor stage next morning for Vernon. In conversation with a "Courier" representative, he stated that Senator Bostock informed him a few days ago that it was the intention of the Dominion Government to greatly improve and extend the telephone system throughout the Okanagan. This will be good news to all who have occasion to complain of the slowness and inefficiency of the long-distance system. Although only of indirect interest to the Okanagan, it may be mentioned that the possibility of securing navigation from the Pacific to Revelstoke or Windermere, via the Columbia River, is another matter that will engage the attention of the government, in co-operation with the United States government, the Hon. Wm. Templeman, Minister of Inland Revenue, having promised Mr. Farris, who acted in the matter on behalf of the Nelson Board of Trade, that an appropriation will be made for the survey of the Columbia and investigation of the feasibility of constructing locks at various points where rapids at present form an impediment to the passage of vessels.

NEWS OF THE PROVINCE

The Victoria Boy Scouts, 200 strong, are in camp at Cadboro Bay.

Funds are being collected at Port Alberni for the erection of a hospital there.

An electric sawmill at Stormont on the Vancouver-New Westminster electric line, is now cutting from 15,000 to 20,000 feet per day from suburban building lots.

An effort will be made by the Salvation Army to bring two hundred more girls into the province this season for domestic service. A considerable number have already been brought out this year, but the supply has proven far short of the demand, Vancouver and Victoria having absorbed the majority of them.

A company to be known as the Western Press Limited, is being organized to print and publish newspapers and periodicals in Vernon, Nanaimo, Phoenix, Revelstoke and other interior centres. The proximity of a general election may have something to do with the present initiation of the enterprise.

Plans and specifications for the new Columbia River bridge to be erected at Trail, and which will form an important link in the new inter-provincial trunk thoroughfare, are now virtually complete, and it is expected that tenders for the erection of this structure will be invited by the department of public works before the minister, Hon. Mr. Taylor, leaves on the next stage of his annual inspection tour.

Provincial Constable Forsythe, of Port Essington, is under the doctor's care as the result of injuries received while arresting a Japanese labourer charged with murder last week. By a judicious trick the son of Nippon succeeding in hurling the officer from the cannery wharf to a scow 20 feet below. The officer painfully ascended to the dock, overhauled and finally overpowered his man. Forsythe's grit may win him the King's Police Medal.

John Houston's name bids fair to live in the geography of the province of British Columbia. The Grand Trunk Pacific townsite of Houston, situated in the centre of the Bulkley Valley, in one of the very richest agricultural districts of the north, is named after this old pioneer. With immensely rich agricultural land tributary to it, in addition to the mineral resources, which are being developed in the north country, much of which is tributary to Houston, the place gives promise of being one of the better known towns of the north in a comparatively short time.

The records of the Timber Branch of the Lands Department for the just-expired month of June show a total of 569 timber licenses issued for lands west of the Cascade range, which bring to the treasury receipts of \$80,420. For lands east of the Cascades 262 licenses were issued, producing a revenue of \$30,370. Other items of the month's business were—Special timber license transfer fees, \$770; penalties, \$3,225; 203 coal prospecting licenses, \$20,050; coal prospecting license transfer fees, \$375; and miscellaneous, \$1,376.12—a total for the month of \$136,483.12. The provincial log scalers during June scaled 66,000,000 feet of logs, an advance of 6,000,000 feet over the corresponding month of last year.

Indications are that the present season's pack of sockeyes in Northern British Columbia will be a most satisfactory one, while reports from the canneries there are to the effect that the labour supply is unusually ample this season—a condition which must operate most advantageously to the canners. The sockeye fishing season, which opened on the Fraser last Saturday is as yet scarcely inaugurated, few fish having as yet ascended the Father of Waters. The recent rains and rough weather are said to operate in keeping the fish outside. On the Island about 2,000 fish have been taken in the traps. Reports from Rivers Inlet state that the run there is poor as yet, while bad weather is common also on the Skeena.

Fresh eggs are now retailing at 75 cents per dozen at Quesnel—a drop of 50 per cent. in three months.

More than 3,000,000 fruit trees have been imported this season by British Columbians.

Flying the Union Jack daily is now compulsory at the Revelstoke public schools.

Cumberland enjoys the unenviable distinction of having probably the worst sidewalks of any town of its size and importance in British Columbia.

High water in the Lower Fraser this season seems to have passed without damage, the gauge at Mission recording a drop of four feet in the past week. It now registers about fifteen feet above low water.

A severe storm last Friday blew down many telegraph poles in the Nelson district and communication with outside points was interrupted for several days.

The three by-laws recently submitted to the Nanaimo ratepayers suffered divided fates, the Sewerage Extension by-law of \$50,000 and the B. C. Hydraulic Power Co. agreement to provide for tramway facilities being endorsed, and the Agricultural Society's loan by-law for \$5,000 being defeated.

Prince Rupert blasters continue to work havoc. A shot fired last Saturday on the McMorde out blew a large rock through the wall of Schrieber & Co.'s premises, tearing a hole about three feet square and ripping the studding and floor joists like match-wood.

The C. P. R. has made an innovation in Western Canadian railroading by awarding a contract for the erection of a railway building at Vancouver for the accommodation of conductors and sleeper and dining-car employees during their recesses between trips to the Terminal City.

The Railway Commission has ordered the C. P. R. to furnish it within 30 days with all desired information as to freight rates. The Railway Commission is to sit at Vancouver in the autumn and the board of trade will then utilize any information that has been gained in its light for a reduction of freight rates.

The cities of Vancouver and New Westminster will soon be connected by a double track electric line in addition to two other single track interurban lines. The British Columbia Electric Railway Company have for the past few weeks had a gang of men at work east of Central Park extending the double trackage towards New Westminster.

For the first time in its history the B. C. E. R. has made an arrangement to export power to the United States. By the terms of an agreement with the town of Sumas, the company will furnish the municipal authorities there with electric power for ten years. The town council is to construct an electric transmission plant and will sell light and power to the citizens.

This year, for the first time, men will be brought from the Pacific Coast to assist in harvesting operations of the central west. It is estimated that there are between seven and ten thousand men available in British Columbia who might be engaged, if a sufficiently low rate is granted by the railway company and other necessary arrangements made. The commissioner of immigration has taken this matter up with Sir William Whyte, and has urged that all that is possible in the interests of the grain growers be done.

A syndicate of the strongest French and German financiers has just secured options for the purchase of docks, warehouses and water frontage in Vancouver and Victoria, the deal involving the transfer of approximately \$1,500,000, the paving of the way for the introduction of other large amounts of French and German capital into British Columbia, a general development of ocean shipping and a swinging of a greater tide of commerce westward to Vancouver and Victoria in anticipation of the early opening of the Panama Canal.

NEWS OF THE DOMINION

Aviator Richter, better known as the Flying Dutchman, was seriously and probably fatally injured at Toronto on Friday. He lost control of his craft and both man and machine were badly damaged.

The Toronto City Council has authorized the construction of civic car lines on streets in the northern outskirts of the city, to cost \$215,000, in addition to \$90,000 for the purchase of a construction plant.

The Ottawa eight were defeated at Henley by the Magdalen College, Oxford, crew, in the fourth heat for the Grand Challenge Cup. The Englishmen won an exciting race by two lengths.

By the sudden collapse of the wharf at Aylmer, near Ottawa, last Friday, 50 people were thrown into the water. A number of men engaged in water sports saved all but one person, Mrs. J. Davis, of Torbolton, who was drowned.

Information from reliable sources is to the effect that the Great Northern and Grand Trunk Pacific have arrived at arrangements whereby the Hill road enters Saskatchewan over the Grand Trunk Pacific to Regina, which is being constructed this year.

It has leaked out that the census figures for Winnipeg will be greatly below the anticipated figures. Those who have been reckoning on a population of one hundred and sixty to one hundred and seventy-five thousand will be disappointed.

The heat wave which prevailed throughout the East last week left a terrible list of dead in many Canadian cities. In Montreal, 146 children died in two days, and Toronto and Ottawa report great increases in infant mortality. Most of the victims were women and children.

That the town of Frank, Alta., is in grave danger of a landslide with heavy loss of life, owing to mining operations, which have weakened the northwest shoulder of Turtle Mountain, is the gist of a report by Prof. R. W. Brock, Director of the Geological survey.

The C. P. R. has granted a 10 per cent. increase of wages and a nine-hour day on its lines between Fort William and the Atlantic coast to all blacksmiths, moulders, machinists, pattern makers, carmen, sheet metal workers, ship fitters and boilermakers in its employ. This includes all shop men in Toronto and Montreal.

The famous Keeley mine, which to 700 shareholders of the Farmers' Bank was a forlorn hope, has suddenly loomed up as a genuine gold mine and will be developed to the fullest extent for the benefit of the shareholders. It will not be sold unless a quarter of a million is offered. This means that the shareholders have as an asset over half the amount invested in the mine by the convicted manager.

A feature of the financial statement of the Dominion for the first quarter of the current fiscal year is the customs showing—an increase of two and a half millions for three months. If this is maintained it will mean an increase of ten millions for the year and bring the customs revenue for twelve months up to the exceptional sum of \$90,000,000. The gross revenue for the quarter shows an increase of nearly three millions, totalling \$29,239,646; the expenditure on the consolidated fund, \$8,985,000, an increase of \$102,625, and the capital expenditure \$2,303,730, a decrease of \$848,305.

The mammoth grandstand at the Winnipeg Exhibition grounds was totally destroyed by fire last Thursday. It was the most spectacular fire ever witnessed in Winnipeg and every fire company in the city was strenuously engaged in the work of preventing the flames from spreading. Architects held a conference while the building was burning and decided that by employing 500 carpenters the grandstand could be rebuilt in time to open the exhibition on July 13, instead of July 12. The loss of \$70,000 is covered by insurance.

WATER STREET Next to City Power House

Launches

I have just received a car load of the finest Launches ever placed on the Okanagan Lake. They are fast, pretty and behave well in rough weather.

I have also a stock of the celebrated Peterborough CANOES & SKIFFS

Look in and examine my stock
